

MOHMED MAHMOUD FOUAD

r Mern Stack Develope

EDUCATION

Udacity-fwd-egypt
2022 – 2021

I learned how to create a multifunction starter on my web application, reaction lifecycle and its importance to web application performance and speed, I learned to extract and fully control my application state via Redux, draw a restart, and restart infinite events better than creating a Thunk Custom broker and add it to the central app store.

PROFESSIONAL EXPERIENCE

Mern Stack Developer **Awalbawl**
2023

I have built a news website using the MERN stack and integrated Puppeteer for news retrieval. I have also implemented SEO techniques to optimize the website's visibility.

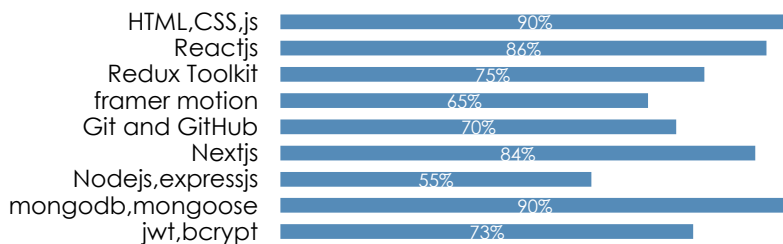

You can find the website at the following link: (<https://www.awalbawl.online/>)

Mern Stack Developer **Akbarsoudi**
2023

I have built a news website using the MERN stack and integrated Puppeteer for news retrieval. I have also implemented SEO techniques to optimize the website's visibility.

You can find the website at the following link: (<https://akbarsoudi.vercel.app/>)

SKILLS

PROFILE

I am proficient in MERN stack development, including MongoDB, Express.js, React.js, Node.js, and Next.js. Next.js is a popular framework built on top of React.js that allows for server-side rendering and efficient client-side rendering. With my expertise in these technologies, I have developed robust and scalable web applications. I have experience in both front-end and back-end development, and I stay updated with the latest industry trends and best practices. I am passionate about creating efficient and user-friendly web solutions and strive for excellence in my work.
